VOLUME 4, ISSUE No. 1–4

Cell Biochemistry and Function

ISSUE No. 1 JANUARY 1986

The Relevance of Various Tests for the Study of Specificity in Immunocytochemical Staining: A Review, **P. J. Van Der Sluis and G. J. Boer** 1

Characterization of Insulin Receptors in Isolated Epithelial Cells of Rat Ventral Prostate: Effect of Fasting, **M. J. Carmena, M. D. Fernandez-Moreno and J. C. Prieto** 19

Rat Hypothalamic Extract Inhibits Vasopressin-Stimulated Na^+–K^+ATPase Activity in the Rat Renal Medulla, **C. Pippard and P. H. Baylis** 25

The Inhibitory Effect of 4-Hydroxy-nonenal on DNA-polymerases Alpha and Beta from Rat Liver and Rapidly Dividing Yoshida Ascites Hepatoma, **E. Wawra, H. Zollner, R. J. Schaur, H. M. Tillian and E. Schauenstein** 31

Investigation of the Role of Ubiquinone in Rat Liver Subcellular Compartments, **A. Casu, D. Cottalasso, M. A. Pronzato, C. Rolla, U. M. Marinari and G. Nanni** 37

Enzymic Heterogeneity of Normal Canine Articular Cartilage, **J. Dunham, D. R. Shackleton, L. Bitensky, J. Chayen, M. E. J. Billingham and I. H. Muir** 43

Differential Sensitivity to Trypsin of Human Bone-Derived Cells in Culture: Surface Changes Detected by Partitioning in Aqueous Two-Phase Systems, **P. T. Sharpe, J. A. Gallagher, B. R. MacDonald, T. E. Treffry and R. G. G. Russell** 47

Stimulation of Tissue Plasminogen Activator Production From Epithelial Cell Lines, **A. Electricwala and B. Griffiths** 55

Effects of Antioxidants and Haemoglobin Status on the *t*-Butyl Hydroperoxide-Induced Oxygen Uptake by Red Blood Cells, **E. Lissi, R. Franz, J. Cabezas, V. Fernández and L. A. Videla** 61

Role of Transferrin in Iron Transport Between Maternal and Fetal Circulations of a Perfused Lobule of Human Placenta, **S. F. Contractor and B. M. Eaton** 69

Correspondence 75

Book Reviews 76

ISSUE No. 2 APRIL 1986

Synoptic Reviews: Monoamine Oxidase

Enzymology of Monoamine Oxidase, **K. F. Tipton** 79

Clinical Chemistry of Monoamine Oxidase, **V. Glover and M. Sandler** 89

Some Aspects of Monoamine Oxidase Pharmacology, **B. A. Callingham** 99

Histochemistry of Monoamine Oxidase Activity, **S. Darracott-Cankovic, L. Bitensky and J. Chayen** 109

Is the Saccharide Component of the Insulin Receptor involved in Hormonal Imprinting?, **P. Kovács and G. Csaba** 111

VOLUME CONTENTS

Biochemical Significance of Enhanced Activity of Fluorinated 1,25-Dihydroxyvitamin D_3 in Human Cultured Cell Lines, **J. A. Eisman, R. J. Frampton and F. J. MacLean** 115

Fasting-Induced Dissociation of Cationic and Secretory Events in Pancreatic Islets, **A. R. Carpinelli, P. C. F. Mathias, V. Leclercq-Meyer and W. J. Malaisse** 123

Effects of Hydrocortisone on Carbohydrase Concentrations, *De Novo* Synthesis and Turnover Patterns in Immature Rat Intestine, **K. K. Tsuboi, L. K. Kwong, Q. Fan, D. J. Thompson, A. E. D'Harlingue and P. Sunshine** 131

Effect of Amiodarone on Na^+-, K^+-ATPase and Mg^{2+}-ATPase Activities in Rat Brain Synaptosomes, **K. S. Prasada Rao, S. B. Rao, Ph. Camus and H. M. Mehendale** 143

Enhanced Glucose Consumption in Erythrocytes Under Mechanical Stress, **M. Kodiček** 153

ISSUE No. 3 JULY 1986

A Microspectrofluorometric Study of the Effect of Anthralin, an Antipsoriatic Drug, on Cellular Structures and Metabolism, **E. Kohen, C. Kohen, P. Morliere, R. Santus, J. P. Reyftmann, L. Dubertret, J. G. Hirschberg and B. Coulomb** 157

Isolated Adipocytes: an Assessment of Cell Surface Changes During their Preparation, **A. A. Al-Jafari, S. R. Lee, R. K. Tume and A. Cryer** 169

Coxsackie B4 Virus Induces Short-Term Changes in the Metabolic Functions of Mouse Pancreatic Islets *In Vitro*, **T. M. Szopa, D. R. Gamble and K. W. Taylor** 181

The Suppression of Endogenous Protein Degradation by Fractions of Foetal Calf Serum: Dialysed Serum is Less Able to Suppress Degradation in Aged Cells, **S. A. Wharton and P. A. Riley** 189

Expression of a Particular β-*N*-Acetylglucosaminidase Isoenzyme in Human Haematopoietic Leukemic Cell-Lines, **A. Orlacchio, C. Emiliani, A. Tabilio and G. B. Pioda** 197

Aggregation States of Cyclic Nucleotide Phosphodiesterase of Murine Thymocytes, **A. S. Sobolev and S. D. Rybalkin** 205

Cellular Distribution of Lysosomal Hydrolase Activities in the Regenerating Rat Liver, **F. M. Baccino, G. Barrera, G. Bonelli, M. Messina, M. Musi and L. Tessitore**. 213

Synergism Between Cytosolic and Mitochondrial Oxidation: its Possible Relevance to the Metabolism of Vitamin D_3 in the Kidney, **M. Bachelet, M. Lair, M. Thomas, D. Monet, A. Ulmann and C. Bader** 227

Book Reviews 233

ISSUE No. 4 OCTOBER 1986

Synoptic Reviews: Pentose Phosphate Pathway (Part I)

Distribution of the Pentose Phosphate Pathway in Living Organisms, **T. Wood**. 235

Physiological Functions of the Pentose Phosphate Pathway, **T. Wood**. 241

Cellular Biochemistry of Glucose 6-Phosphate and 6-Phosphogluconate Dehydrogenase Activities, **J. Chayen, D. W. Howat and L. Bitensky** 249

Differentiation of Myeloid Cells in Liquid Culture. 1. Progenitor Cells Found in Normal Peripheral Blood, **E. Archimbaud and H. D. Preisler** 255

Red Blood Cell Phagocytosis and Lysis Following Oxidative Damage by Phenylhydrazine, **M. Magnani, V. Stocchi, L. Cucchiarini, L. Chiarantini and G. Fornaini** 263

VOLUME CONTENTS

The Effects of Acute Phosphate Depletion on Isolated Chick Kidney Tubule Cells, **M. F. Grahn and P. J. Butterworth** 271

Cortisol Succinate is Slowly Hydrolysed in Organ Cultures of Porcine Articular Tissues and is Not Equivalent to Cortisol, **C. E. Lawrence, J. M. Wright and C. G. Knight** 277

Phospholipids in Chromatin: Incorporation of $[^{32}P]O_4^{2-}$ in Different Subcellular Fractions of Hepatocytes, **M. P. Viola-Magni, P. B. Gahan, E. Albi, R. Iapoce and P. F. Gentilucci** 283

Biochemical Aspects of the Mechanism of Action of Antiarrhythmic Drugs on Mitochondria. VII. Effect on Energy-linked Reactions and on Membrane Potential, **M. L. W. Klüppel, H. R. Borba, O. Silveira, L. C. V. Lopes and A. P. Campello** 289
